FAMILY NEWS

UPDATE—From Lindsay McCarter: I have viral meningitis that I thought was caused from shingles but turned out that the break outs are part of the meningitis. I have been in the hospital getting anti-viral IV therapy and will most likely go home today (Friday) (at the latest tomorrow) and continue the IV treatments at home for awhile. Thank you for all the prayers from my precious church family. I have felt every one!

THANK YOU all so much for your love and prayers, cards, calls, and texts. The wind chimes are so beautiful-what a loving way to remember my brother. I'm so grateful for my family at Lamar Avenue. Thank you all so much.
